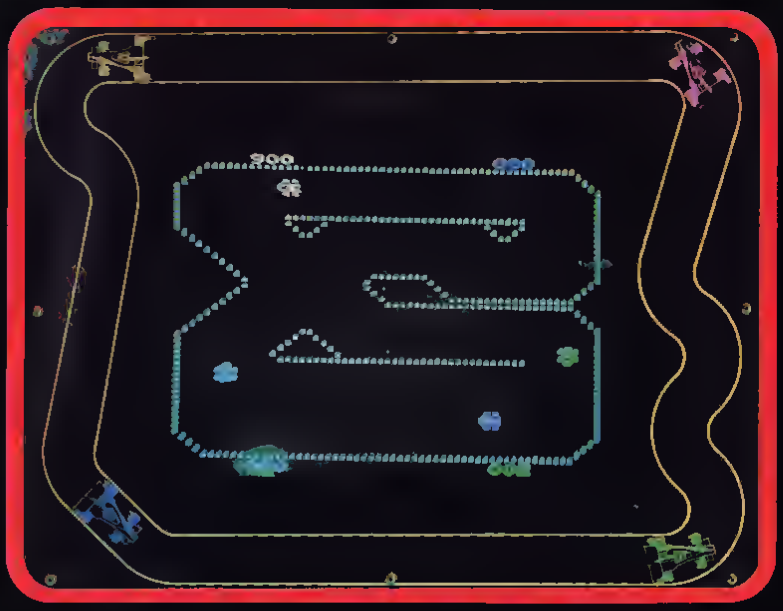
- 4 optional game times.

ATARI®

A Warner Communications Company



Players can select any one of ten different tracks.

New Sprint 4.™ New profit action.

New Sprint 4 has it **all!** All the exciting action features that players want, all the profit features operators want.

Features performance-proven in location after location in such famous Atari motor racing games as Sprint 2,™ Indy 8,™ and Indy 4.™

Challenge, realism, variety, fast action, competition. It's all there in Sprint 4. And it's in color!

10 games in one for 1, 2, 3, or 4 players.

10 different player-selectable tracks makes Sprint 4 a new challenge every time it's played. Keeps players coming back again and again.

There's an individual Track-Select button and Start button for each player. And cars **not** being driven during a less-than-4-player race become "drone" cars, adding to the skill challenge.

Big 25″ color monitor gets more attention, more action.

Each player drives his own color car. The score color matches the car, so there's no confusion. The new Big One even has larger race car pictures in 2 different styles.

More realism.

Life-like steering wheels, durable 4-speed shifters and gas pedals literally put the players in their own Grand Prix racer.

And motor, screech and crash sounds from 4 speakers add to the thrills. Sound effects are adjustable too with a master-volume control located off-board for easy coin-door access.

Less time in the pits.

Testing you can do yourself, on-the-spot, means higher earnings. With Atari's exclusive built-in **self-diagnostic routine,** you can test on-board circuitry as well as off-board switches and lamps.

Unique cabinet design with removable side panels make service access easier. And Durastress™ tested all solid state reliability and rugged construction add up to less down-time. Exclusive Instapart™ 24-hour parts turnaround and our toll-free customer service number (800-538-6892) make it easy to get fast help anytime.

Profit options.

4 video messages can be operator-selected to display English, German, Spanish, or French.

Game time is adjustable to 60, 90, 120, or 150 seconds.

2 coin modes. 1 or 2 coins per player.

Late start. This option allows additional players to enter a race **after** it has begun.

Specifications.

Height: 70,″ 178 cm; width: 39,″ 99 cm; depth: 39,″ 99 cm. 50 or 60 cycle operation at 110 or 220 V.

Monitor: 25″ diagonal measure, color

Take the Green Flag . . .

For greener profits. **The** '78 is here now! And now's the time to get in on the sure-fire action. Talk to your Atari Distributor now, or contact Atari Inc., 1265 Borregas Avenue, Sunnyvale, CA 94086. (408) 745-2500.
